## PHP, LARAVEL WEB DEVELOPER

As a web developer with expertise in PHP, Laravel, HTML, CSS, Bootstrap 5, jQuery, and MySQL databases, I focus on backend development and creating dynamic web applications while managing databases efficiently. A strong emphasis is placed on building responsive, user-friendly layouts and crafting intuitive front-end designs that enhance user experience.

## KEY COMPETENCIES

- Problem-solving
- Staying Updated
- Version Control Systems

## PROFESSIONAL EXPERIENCE

### Webstaller

Jun 2024-ongoing

#### Software House

- Contributed to a point-of-sale project developed using core PHP.
- Focused on key sections, including purchasing, sales, and management of customer and dealer information.
- Enhanced my backend development and database management skills by applying academic knowledge in practical settings.

### Yellow soul

2023

#### Software House

- Completed a practical course at Yellow Soul, a software house, where I gained hands-on experience in HTML, CSS, and JavaScript for front-end web development.
- Acquired the ability to create responsive and visually appealing web pages while enhancing user experience through interactivity.

### University of Sargodha

2023

#### Construction Website(FYP) My Responsibilities

- Led a team project to develop a construction service website, where I wrote the project proposal, created use case and class diagrams, and developed a Gantt chart to track our timeline and milestones.
- Focused on preparing the front-end design to deliver a user-friendly and responsive experience while coordinating effectively with team members throughout the development process.
